

The MCA would like to note the following corrections to the text in the Consultation Document MCA/C/16-2612 titled “The assignment process for the 1.5 GHz band (1452 – 1492 MHz band) for the use in wireless broadband electronic communication services in Malta”.

*The first sentence of the second paragraph on page 9 should read:*

In addition, the Authority proposes an increase of 20 MHz to establish a new overall spectrum cap of 230 MHz.
