## Corrigendum

In Page 6 (of 45) Paragraph 1 in section “Purpose of this consultation paper” from:

“This consultation will concern the spectrum which is used for the commercial DTTV services. Therefore, one channel in the UHF band (Channel 45) and one channel in the VHF band (Channel 5) shall remain reserved for the transmission of the GIO network. In the eventuality that either or any of these channels become available for commercial use, the Authority would consult again on the future of these channels.”

shall read:

“This consultation will concern the spectrum which is used for the commercial DTTV services. Therefore, one channel in the UHF band (Channel 43) and one channel in the VHF band (Channel 5) shall remain reserved for the transmission of the GIO network. In the eventuality that either or any of these channels become available for commercial use, the Authority would consult again on the future of these channels.”
