5G Services launch in Montenegro for the First Time

Source: Telecoms.com

Just three months after winning 5G spectrum at auction, Crnogorski Telekom has announced its first commercial deployment of the technology in the country's capital. [[read more](#)].

UK Regulator proposes adding Upper 6 GHz Band to Shared Licensing Regime

Source: Policy Tracker

Ofcom is consulting on a plan to add the band to its existing sharing regime but says it could still be allocated for mobile or unlicensed use. [[read more](#) – subscription required].

Brussels to approach ITU for Satellite Broadband Spectrum

Source: Policy Tracker

The European Commission is pressing ahead with plans for a new secure satellite broadband system but it will need frequencies and orbital slots from the ITU in order to provide commercial services. [[read more](#) – subscription required].

Denmark adopts new Data Retention Rules

Source: Cullen International

The Danish Parliament adopted on 3 March 2022 a new data retention law. According to the minister of justice, the new rules, which have not yet entered into force, will bring the Danish data retention regime in line with the case law of the Court of Justice of the EU (CJEU).
