

## DEVELOPMENTS IN ELECTRONIC COMMUNICATIONS NETWORKS & SERVICES

### **CNMC conducts a New Analysis of the Wholesale Dedicated Capacity Market**

Source: *Cullen International*

The Spanish regulator, CNMC, notified its analysis of the wholesale dedicated capacity market (market 2/2020) to the European Commission. [[read more](#) – subscription required].

### **Ofcom's Future Approach to Mobile Markets**

Source: *Cullen International*

The UK telecoms regulator, Ofcom, is not proposing new regulatory interventions in mobile markets. Instead, it will continue to monitor how competition evolves, assess any key risks that might affect the delivery of good outcomes, and take action where necessary. ### **New Laws to increase Mobile Coverage and accelerate the Roll-out of 5G**

Source: *Cullen International*

The UK government is preparing a reform of planning laws aimed at increasing 4G coverage in rural areas and accelerating 5G roll-out. According to the government, the planned law changes (e.g. allowing taller and wider masts) will reduce the need for new phone masts and will boost the signal on roads.
