

ECS REGULATION

European Commission has Serious Doubt about the Finding of Joint SMP in the Czech Market for Wholesale Mobile Access and Call Origination

Source: *Cullen International*

The European Commission suspended the adoption of the proposed regulation of the Czech market for wholesale call access and origination until 20 February 2022. [[read more](#) – subscription required].

POST

ERGP wants Online Delivery Platforms to be addressed by Postal Regulations

Source: *Cullen International*

The ERGP has called for relevant online platforms to be addressed by postal regulations. This would include at least the power for postal regulators to collect information from such platforms and to have the ability to address their activities affecting postal markets. [[read more](#) – subscription required].

ERGP releases two new Reports on Cross-Border Parcel Delivery

Source: *Policy Tracker*

The ERGP published two new reports covering cross-border parcel delivery: (i) report on the cross-border regulation implementation; and (ii) report on the harmonised measures related to standardised cross-border parcel delivery. [[read more](#) – subscription required].
