

## DEVELOPMENTS IN ELECTRONIC COMMUNICATIONS NETWORK AND SERVICES

### ANCOM proposes new Rules for Spectrum Sharing

The electronic communications regulator, ANCOM, proposed to revise conditions and the approval procedure for spectrum sharing. Spectrum sharing would only be implemented in mobile spectrum bands (from 700 MHz to 26 GHz) provided that there is no more radio spectrum available and the proposed sharing will not affect competition. **Cullen International** ([read more](#) – subscription required)

### 2030 Digital Decade: European Commission will measure Progress on 5G Coverage regardless of Spectrum Bands used

The European Commission adopted its key performance indicators (KPI) to measure progress towards the EU's 2030 digital targets laid down in the Digital Decade Policy Programme (DDPP). The DDPP is the EU's overarching digital strategy for 2030. **Cullen International** ([read more](#) – subscription required)

## DEVELOPMENTS IN THE DIGITAL SERVICES SECTOR

### National Regulators face an Uphill Battle in Enforcing EU Digital Rulebook

EU countries are in the process of setting up the competent authority to police Europe's ambitious new digital rules, with no shortage of challenges ahead. **Euractiv** ([read more](#))

## DEVELOPMENTS IN THE POSTAL SECTOR

### Study calls for BIPT Action on Sustainability and Labour Conditions related to e-Commerce and Parcel Delivery

A study for BIPT, the Belgian postal regulator, reveals the different postal challenges caused by the growing Belgian e-commerce market. **Cullen International** ([read more](#) – subscription required)

### ARCEP (France) adopts a New Postal Price Cap for the Period 2024–2025

ARCEP and La Poste have agreed on a new pricing framework for 2024–2025. ARCEP has decided to cap the increase in prices for universal postal services (US) at a nominal rate of 17% over the two-year period of the price cap, with a maximum annual nominal rate of 10%. **Cullen International** ([read more](#) – subscription required)
