

DEVELOPMENTS IN THE DIGITAL SECTOR

Why Europe needs a Digital Knowledge Act

The next European Commission and Parliament should tackle the barriers that European knowledge institutions face in the digital world head-on, argue Felix Reda and Justus Dreyling. [Euractiv \(read more\)](#)

Commission launches Public Consultation on the Implementing Regulation on Transparency Reporting under the DSA

The European Commission has launched a public consultation to gather feedback on the Implementing Regulation on the templates that intermediary services and online platforms will have to use for their future transparency reports under the Digital Services Act (DSA). [European Commission \(read more\)](#)

DEVELOPMENTS IN ELECTRONIC COMMUNICATIONS NETWORK AND SERVICES

Cost becomes an issue for UK Internet Users

A small percentage of UK consumers do not have access to the Internet at home and cost increasingly part of the reason why, according to new data from Ofcom. **Telecoms.com** ([read more](#))

DEVELOPMENTS IN THE POSTAL SECTOR

Postnord Denmark to end Universal Postal Service

The universal postal service in Denmark will end on January 1st, 2024. Exceptions apply to mail for small islands and visually impaired people, and international mail, for which procurement processes will be carried out. PostNord Denmark is negotiating a transitional agreement with the Danish state to ensure delivery of such items of mail until the procurement processes have been completed. The decision has no immediate impact on PostNord's parcel operations in Denmark. **Post & Parcel** ([read more](#))

IPC: Postal Efforts to Diversify and Innovate Have Allowed Them to Sustain Growth Despite Global Uncertainty

Despite global uncertainty and reduced e-commerce growth, the postal industry shows resilience, as revealed in the IPC Global Postal Industry Report 2022 Key Findings. **Post & Parcel** ([read more](#))
