## **1 General Information on Commercial General Authorisations and Notification Form**

In accordance with the provisions of the Electronic Communications (Regulations) Act (hereafter "Act") and the Electronic Communications Networks and Services (General) Regulations (hereafter "Regulations"), a Commercial General Authorisation is required for the provision of electronic communications networks and, or services. The respective categories of Commercial General Authorisation include the establishment and operation of:

- Public Electronic Communications Networks;
- Voice Communications Services;
- Internet Access Services;
- Television and Radio Distribution Services;
- Other Electronic Communications Services.

### **1.1 Notification Form by New Providers**

Any undertaking who intends to provide any of the above services is required to notify the Malta Communications Authority (MCA) by completing **Form A** found in Section 1 of this document in its entirety.

An undertaking who intends to submit a notification for a commercial general authorisation is encouraged to contact the Malta Communications Authority beforehand in order to facilitate the process and obtain guidance where appropriate.

### **1.2 Notification of Cessation, Updates or Changes by Existing Providers**

Any undertaking providing electronic communications services/networks is also required to notify the Malta Communications Authority of any update, change or cessation to the information supplied by completing **FORM B(i) and/or FORM B(ii)** for updates or changes, and **FORM C** in the case of cessation as specified in Section 2 of this document.

When a notified undertaking or person wishes to update or change the contents of the Notification Form, or opts to withdraw the commercial general authorisation, it is required to adhere to the conditions found in **Section 2** of this document which is dedicated solely for these eventualities.

Section 2 also includes the procedure that is required when a change in the Memorandum and Articles of Association in relation to the shareholding or ownership of a notified undertaking takes place.

### **1.3 Important Notice on Additional Requirements**

A commercial general authorisation does not automatically entitle any undertaking to, and does not exempt it from, the obligation to obtain and/or notify for and comply with, any permit, licence, right of use, or other general authorisation in respect of numbering resources, equipment, or radio spectrum, and/or other approval or authorisation,

however so described, that may be necessary at law to construct, operate and maintain the network and, or services.

Where the notifying undertaking is registered in an EU country, the notification must include an official address for service of notice in Malta. Where the notifying undertaking is not registered in an EU country, the notification must include an official address for service of notice in Malta and the notifying undertaking must, as a minimum, be registered as an overseas company with the Malta Business Registry.

#### **1.4 Method of Submitting any Notification**

Original and duly filled-in notification forms must be submitted to the Authority in an envelope clearly marked "Notification for Commercial General Authorisation" by hand or registered mail addressed to:

**The Chief of Operations  
Malta Communications Authority  
Valletta Waterfront  
Pinto Wharf  
Floriana FRN 1913  
Malta**

A Memorandum & Articles of Association of the company must also be submitted by all new Network and/or Service Providers. This should also be submitted by existing Network and/or Service Providers when notifying changes in relation to ownership or signatories.

In order to expedite matters, prior to submitting the physical form by hand or registered mail (including wet signatures), the form may be completed electronically and sent to [authorisations@mca.org.mt](mailto:authorisations@mca.org.mt). This would enable the Authority to initiate the process and provide it with the opportunity to communicate any additional/different information that may be required.

#### **1.5 Register of Undertakings authorised to provide electronic communications networks/services**

In accordance with Regulation 5(4) of the Regulations, upon receipt by the Authority of a correctly completed Notification Form, the undertaking concerned: "... shall not be required to obtain an explicit decision or any other administrative act from any public authority before exercising the rights derived from the general authorisation. Upon notification to the Authority, an undertaking may start the activity so notified, where necessary subject to the provisions on the rights of use under the Act and these regulations."

The Authority shall update the Register of Authorised Undertakings within 5 working days of receipt of a correctly completed notification. In the event that the form is not completed correctly, the Authority shall inform the notifying party accordingly. Undertakings are responsible to ensure receipt of notification either directly with the Authority or by reference to the Register of Authorised Undertakings, available on the MCA's website.

## **1.6 Rights and Obligations attached to the Commercial General Authorisation**

The Commercial General Authorisation obligations and conditions are laid out in the Thirteenth Schedule to the Electronic Communications Networks and Services (General) Regulations. Administrative charges are specified in the Twelfth Schedule (Part A) to the Electronic Communications Networks and Services (General) Regulations and will be charged by the Authority immediately upon notification in accordance with the Directive on the Modalities of Payment.
