DEVELOPMENTS IN ELECTRONIC COMMUNICATIONS NETWORK AND SERVICES

Ampere: Streaming Revenue overtakes PSBs in Europe

New research by Ampere Analysis shows that total revenues from paid streaming services surpassed public TV revenue in Europe for the first time last year. **Broadband TV News** ([read more](#))

TDF commits to 5G Broadcast Revolution

TDF says there is now a “real public appetite” for 5G Broadcast, which the French transmission company describes as a “major step forward for Digital Terrestrial Television”. **Broadband TV News** ([read more](#))

DEVELOPMENTS IN THE POSTAL SECTOR

Austrian Post introduces New tariffs as “Fewer and fewer Letters are being sent”

Austrian Post is reacting to an amendment to the Postal Market Act and is simplifying its letter products. The previous “ECO-Brief” with a transit time of two to three working days will become the new standard “letter” product. For faster delivery on the next working day, there is the additional service “Premium”. **Post & Parcel** ([read more](#))

PostNord: In Denmark, we are now taking the Tough Decision to discontinue our Mail Business

As from 2026, PostNord will stop handling letters in Denmark and focus on becoming the Danes’ favourite parcel delivery service. **Post & Parcel** ([read more](#))
