

DEVELOPMENTS IN ELECTRONIC COMMUNICATIONS NETWORK AND SERVICES

EU Digital Networks Act (DNA) and Review of Cybersecurity Act (CSA) Proposals delayed until 20 January 2026

The European Commission's latest agenda shows that it intends to adopt legislative proposals on both the DNA and the CSA review on 20 January 2026. The initial planning for both the DNA and the CSA review was December 2025. **Cullen International** ([read more](#) – subscription required)

UK Telcos team up on Voice and SMS Fraud

The UK's major mobile and broadband providers have signed a new charter whose key tenet is to tackle fraud on telecoms networks. Mobile operators have agreed to work together to address the growing issue of scam calls and text messages through a range of measures that will be implemented over the next 12 months and beyond. **Telecoms.com** ([read more](#))

BEREC roaming databases to include information on Moldova and Ukraine

In July 2025, the Council adopted decisions to integrate Moldova and Ukraine into the 'roam like at home' area, effective as of 1 January 2026. **BEREC Europa** ([read more](#))

BT to launch Starlink Service next year

The UK incumbent made the announcement alongside the publication of its first-half results on Thursday. We had suspected a deal was in the offing, with rival O2 having announced one of its own with the LEO satellite operator just last week. But this is not the direct-to-cell partnership we were hoping would light a fire under the space-based mobile services market in the UK. **Telecoms.com** ([read more](#))

Member States and Commission test collective Cybersecurity Crisis Response

On 4 November 2025, senior cybersecurity officials from EU Member States and the Commission took part in the 2025 edition of the 'Blueprint Operational Level Exercise' (BlueOLEx), marking the first exercise since the adoption of the new EU Cyber Blueprint that clarifies roles and responsibilities in a crisis. **European Commission** ([read more](#))
