

## DEVELOPMENTS IN ELECTRONIC COMMUNICATIONS NETWORK AND SERVICES

### UK Mobile Users turn to eSIM for travelling

Awareness of eSIM technology is on the up in the UK and over 70% of people are mulling the use of an eSIM the next time they travel overseas, according to new research. [Telecoms.com](#) ([read more](#))

### UK to publish new Civil/Military Spectrum Sharing Framework

The regulator Ofcom and the defence ministry recently approved a new spectrum sharing framework designed to enable the military to access mobile bands and mobile operators to access military bands. [Policy Tracker](#) ([read more](#) – subscription required)

# DEVELOPMENTS IN THE POSTAL SERVICES

## Ireland proposes New Minimum Requirements for Postal Service Providers' User Complaint Handling Procedure

ComReg, Ireland's communications regulator, is consulting on a set of proposed minimum requirements for postal service providers' codes of practice on handling user complaints. The proposals are intended to apply a standardised approach to complaint handling. **Cullen International** ([read more](#) – subscription required)

## Poland consults on Postal Law Amendments to regulate Dangerous Postal Items

The Polish Ministry of State Assets is consulting until 10 February 2026 on a draft amendment to the Postal Act to regulate the handling of dangerous postal items. **Cullen International** ([read more](#) – subscription required)
