

PRESS RELEASE / 3 August 2026

MCA Marks 25 Years with Commemorative Postage Stamp Set Supporting the Community Chest Fund

This limited-edition stamp set traces the Authority's 25-year regulatory journey through six commemorative stamps.

To mark the 25th anniversary of its establishment, the Malta Communications Authority (MCA) has issued a limited edition set of commemorative postage stamps under the theme “Regulating for a Connected Digital Future”.

The six-stamp collection reflects the key areas in which the MCA has exercised its regulatory and public policy responsibilities over the past quarter-century: electronic communications, postal services, digital services, cybersecurity, together with the Authority’s engagement at European and international levels. The sixth stamp features the MCA’s 25th anniversary logo. The design elements featured on each stamp are drawn from past MCA Annual Reports and illustrate the Authority’s evolving role since it was established in 2001.

Commenting on the launch, Jesmond Bugeja, Chief Executive Officer of the MCA, said:

"This stamp set is a small but meaningful way to mark 25 years of regulatory work that has helped shape Malta's communications and digital landscape. We are also pleased that all proceeds from this initiative will support the Malta Community Chest Fund and the valuable work it carries out within our community."

Ordering Information

Members of the public wishing to purchase a set are asked to submit a request through the online order form, available at:

[MCA 25 Years Stamp Set Order Form](#)

Buyers may choose between:

- **Collection in person**, free of charge, from the MCA's offices at Valletta Waterfront; or
- **Delivery by registered mail**, at the buyer's cost (postage indicated on invoice).

Payment can be made by bank transfer, or by cheque upon collection.

Pricing

- Price per set: €35
- Domestic postage (for orders delivered by registered mail): standard MaltaPost registered mail rates apply, and will be indicated on the invoice

A limited number of commemorative stamp sets have been produced. Once sold out, no further sets will be issued.

Orders will be processed on a strictly first-come, first-served basis, and are subject to availability. Given the limited number of sets produced, early ordering is encouraged.

About the Malta Communications Authority

The Malta Communications Authority (MCA) is the national regulatory authority responsible for electronic communications, postal services, digital services, and aspects of cybersecurity related to digital infrastructure. Established in 2001, the MCA works to promote competition, innovation, consumer protection, and trust in Malta's digital environment. The Authority also serves as Malta's Digital Services Coordinator under the European Union's Digital Services Act and actively contributes to European and international regulatory cooperation, supporting a connected, secure, and future-ready digital society.

In 2026, the MCA marks 25 years of serving Malta's communications and digital sectors.
